Guided Comprehension: Self

A majority of students in grades 3 to 6 are beyond decoding instruction. Strategic reading allows students to monitor their own thinking and make connections between texts and their own experiences. Based on the Guided Comprehension Model developed by Maureen McLaughlin and Mary Beth Allen, this ...

Electrotherapy on the Web

Modalities, References, News & Presentations. Electrotherapy on the Web provides current, non commercial information on various aspects of Electrotherapy. It is not presented as a replacement for current texts but attempts to provide an independent view of the current state of the art. The range of pages and topics continues to expand, and some of the long standing pages get updated whenever I ...

Allergy

Allergies, also known as allergic diseases, are a number of conditions caused by hypersensitivity of the immune system to typically harmless substances in the environment. These diseases include hay fever, food allergies, atopic dermatitis, allergic asthma, and anaphylaxis. Symptoms may include red eyes, an itchy rash, sneezing, a runny nose, shortness of breath, or swelling.

The Building Blocks of Interpretability

With the growing success of neural networks, there is a corresponding need to be able to explain their decisions — including building confidence about how they will behave in the real-world, detecting model bias, and for scientific curiosity.
